SUBJECT INDEX

Axial loads
Design of Piles in Permafrost Under Combined Lateral and Axial Load, A. Foriero and B. Ladanyi, CR Sept. 91, p89-105.

Axisymmetry
Pressure of Crushed Ice as Mohr-Coulomb Material Against Flat, Axisymmetric Indentor, Dat Duthinh, CR Dec. 92, p139-151.

Bacteria
Microorganism Survival in Ice-Covered Marine Environment, S. J. Stanley, D. W. Smith and G. D. Milne, CR June 92, p58-72.

Bridges, piers
Ice Loads on Vertical Bridge Pier at Two Different Model Scales, F. T. Christensen and P. Klinting, CR Sept. 92, p93-110.

Brittleness
Safety and Service Life of Equipment Designed for Cold Climate Operation, V. P. Larionov, CR Sept. 92, p111-123.

Cold regions
Finite Element Analysis of Cold Embedments in Fresh Concrete, Daniel P. Swift, Jay A. Puckett and Thomas V. Edgar, CR June 92, p41-57.

Microorganism Survival in Ice-Covered Marine Environment, S. J. Stanley, D. W. Smith and G. D. Milne, CR June 92, p58-72.

Pressure of Crushed Ice as Mohr-Coulomb Material Against Flat, Axisymmetric Indentor, Dat Duthinh, CR Dec. 92, p139-151.

Safety and Service Life of Equipment Designed for Cold Climate Operation, V. P. Larionov, CR Sept. 92, p111-123.

Cold weather construction
Design Method for Frozen-Soil Retaining Wall, Sweanum Soo and B. B. Muvdi, CR June 92, p73-89.

Finite Element Analysis of Cold Embedments in Fresh Concrete, Daniel P. Swift, Jay A. Puckett and Thomas V. Edgar, CR June 92, p41-57.

Cold weather operations
Safety and Service Life of Equipment Designed for Cold Climate Operation, V. P. Larionov, CR Sept. 92, p111-123.

Winter Operability: Equipment Problems and Their Remedies, Deborah Diemand, CR Sept. 92, p124-137.

Concrete
Finite Element Analysis of Cold Embedments in Fresh Concrete, Daniel P. Swift, Jay A. Puckett and Thomas V. Edgar, CR June 92, p41-57.

Construction equipment
Winter Operability: Equipment Problems and Their Remedies, Deborah Diemand, CR Sept. 92, p124-137.

Contamination
Microorganism Survival in Ice-Covered Marine Environment, S. J. Stanley, D. W. Smith and G. D. Milne, CR June 92, p58-72.

Creep
Design of Piles in Permafrost Under Combined Lateral and Axial Load, A. Foriero and B. Ladanyi, CR Sept. 91, p89-105.

Temperature-Independent Relationships for Frozen Soils, H. Wijeweera and R. C. Joshi, CR Mar. 92, p1-21.

Crushing
Pressure of Crushed Ice as Mohr-Coulomb Material Against Flat, Axisymmetric Indentor, Dat Duthinh, CR Dec. 92, p139-151.

Decay
Microorganism Survival in Ice-Covered Marine Environment, S. J. Stanley, D. W. Smith and G. D. Milne, CR June 92, p58-72.

Density
Estimating Thaw-Strain Settlement of Frozen Fill, G. Scott Crowther, CR Dec. 92, p152-159.

Design
Design Method for Frozen-Soil Retaining Wall, Sweanum Soo and B. B. Muvdi, CR June 92, p73-89.

Design of Piles in Permafrost Under Combined Lateral and Axial Load, A. Foriero and B. Ladanyi, CR Sept. 91, p89-105.

Equipment
Safety and Service Life of Equipment Designed for Cold Climate Operation, V. P. Larionov, CR Sept. 92, p111-123.

Field tests
Microorganism Survival in Ice-Covered Marine Environment, S. J. Stanley, D. W. Smith and G. D. Milne, CR June 92, p58-72.

Seasonal Soil Strength by Spectral Analysis of Surface Waves, Bernard D. Alkire, CR Mar. 92, p22-38.

Fills
Estimating Thaw-Strain Settlement of Frozen Fill, G. Scott Crowther, CR Dec. 92, p152-159.

Finite element method
Design of Piles in Permafrost Under Combined Lateral and Axial Load, A. Foriero and B. Ladanyi, CR Sept. 91, p89-105.

Finite Element Analysis of Cold Embedments in Fresh Concrete, Daniel P. Swift, Jay A. Puckett and Thomas V. Edgar, CR June 92, p41-57.

Flexural strength
Design Method for Frozen-Soil Retaining Wall, Sweanum Soo and B. B. Muvdi, CR June 92, p73-89.

Freeze-thaw cycle
Seasonal Soil Strength by Spectral Analysis of Surface Waves, Bernard D. Alkire, CR Mar. 92, p22-38.

Freezing
Estimating Thaw-Strain Settlement of Frozen Fill, G. Scott Crowther, CR Dec. 92, p152-159.

Finite Element Analysis of Cold Embedments in Fresh Concrete, Daniel P. Swift, Jay A. Puckett and Thomas V. Edgar, CR June 92, p41-57.

Frozen soils
Design Method for Frozen-Soil Retaining Wall, Sweanum Soo and B. B. Muvdi, CR June 92, p73-89.

Temperature-Independent Relationships for Frozen Soils, H. Wijeweera and R. C. Joshi, CR Mar. 92, p1-21.

Grease
Winter Operability: Equipment Problems and Their Remedies, Deborah Diemand, CR Sept. 92, p124-137.

Heating
Winter Operability: Equipment Problems and Their Remedies, Deborah Diemand, CR Sept. 92, p124-137.

Ice
Estimating Thaw-Strain Settlement of Frozen Fill, G. Scott Crowther, CR Dec. 92, p152-159.

Pressure of Crushed Ice as Mohr-Coulomb Material Against Flat, Axisymmetric Indentor, Dat Duthinh, CR Dec. 92, p139-151.

Ice cover
Microorganism Survival in Ice-Covered Marine Environment, S. J. Stanley, D. W. Smith and G. D. Milne, CR June 92, p58-72.

Ice forces
Ice Loads on Vertical Bridge Pier at Two Different Model Scales, F. T. Christensen and P. Klinting, CR Sept. 92, p93-110.

Ice loads
Ice Loads on Vertical Bridge Pier at Two Different Model Scales, F. T. Christensen and P. Klinting, CR Sept. 92, p93-110.

Interactions
Design of Piles in Permafrost Under Combined Lateral and Axial Load, A. Foriero and B. Ladanyi, CR Sept. 91, p89-105.

Lateral loads
Design of Piles in Permafrost Under Combined Lateral and Axial Load, A. Foriero and B. Ladanyi, CR Sept. 91, p89-105.

Load combinations
Design of Piles in Permafrost Under Combined Lateral and Axial Load, A. Foriero and B. Ladanyi, CR Sept. 91, p89-105.

Materials testing
Safety and Service Life of Equipment Designed for Cold Climate Operation, V. P. Larionov, CR Sept. 92, p111-123.

Model tests
Ice Loads on Vertical Bridge Pier at Two Different Model Scales, F. T. Christensen and P. Klinting, CR Sept. 92, p93-110.

Nondestructive tests
Seasonal Soil Strength by Spectral Analysis of Surface Waves, Bernard D. Alkire, CR Mar. 92, p22-38.

Ocean environments
Microorganism Survival in Ice-Covered Marine Environment, S. J. Stanley, D. W. Smith and G. D. Milne, CR June 92, p58-72.

Oscillations
Ice Loads on Vertical Bridge Pier at Two Different Model Scales, F. T. Christensen and P. Klinting, CR Sept. 92, p93-110.

Outfall sewers
Microorganism Survival in Ice-Covered Marine Environment, S. J. Stanley, D. W. Smith and G. D. Milne, CR June 92, p58-72.

Permafrost
Design of Piles in Permafrost Under Combined Lateral and Axial Load, A. Foriero and B. Ladanyi, CR Sept. 91, p89-105.

Piles
Design of Piles in Permafrost Under Combined Lateral and Axial Load, A. Foriero and B. Ladanyi, CR Sept. 91, p89-105.

Plane strain
Pressure of Crushed Ice as Mohr-Coulomb Material Against Flat, Axisymmetric Indentor, Dat Duthinh, CR Dec. 92, p139-151.

Plastics
Winter Operability: Equipment Problems and Their Remedies, Deborah Diemand, CR Sept. 92, p124-137.

Retaining walls
Design Method for Frozen-Soil Retaining Wall, Sweanum Soo and B. B. Muvdi, CR June 92, p73-89.

Safety
Safety and Service Life of Equipment Designed for Cold Climate Operation, V. P. Larionov, CR Sept. 92, p111-123.

Scale effect
Ice Loads on Vertical Bridge Pier at Two Different Model Scales, F. T. Christensen and P. Klinting, CR Sept. 92, p93-110.

Service life
Safety and Service Life of Equipment Designed for Cold Climate Operation, V. P. Larionov, CR Sept. 92, p111-123.

Soil properties
Seasonal Soil Strength by Spectral Analysis of Surface Waves, Bernard D. Alkire, CR Mar. 92, p22-38.

Soil settlement
Estimating Thaw-Strain Settlement of Frozen Fill, G. Scott Crowther, CR Dec. 92, p152-159.

Spectral analysis

Seasonal Soil Strength by Spectral Analysis of Surface Waves, Bernard D. Alkire, CR Mar. 92, p22-38.

Strain

Temperature-Independent Relationships for Frozen Soils, H. Wijeweera and R. C. Joshi, CR Mar. 92, p1-21.

Strain rate

Temperature-Independent Relationships for Frozen Soils, H. Wijeweera and R. C. Joshi, CR Mar. 92, p1-21.

Strength

Temperature-Independent Relationships for Frozen Soils, H. Wijeweera and R. C. Joshi, CR Mar. 92, p1-21.

Stress

Temperature-Independent Relationships for Frozen Soils, H. Wijeweera and R. C. Joshi, CR Mar. 92, p1-21.

Surface waves

Seasonal Soil Strength by Spectral Analysis of Surface Waves, Bernard D. Alkire, CR Mar. 92, p22-38.

Temperature

Temperature-Independent Relationships for Frozen Soils, H. Wijeweera and R. C. Joshi, CR Mar. 92, p1-21.

Temperature effects

Safety and Service Life of Equipment Designed for Cold Climate Operation, V. P. Larionov, CR Sept. 92, p111-123.

Winter Operability: Equipment Problems and Their Remedies, Deborah Diemand, CR Sept. 92, p124-137.

Thawing

Estimating Thaw-Strain Settlement of Frozen Fill, G. Scott Crowther, CR Dec. 92, p152-159.

Wave velocity

Seasonal Soil Strength by Spectral Analysis of Surface Waves, Bernard D. Alkire, CR Mar. 92, p22-38.
